MANAGEMENT DISCUSSION AND ANALYSIS REPORT

- a) **Industry structure and developments:** The robust export demand for cotton yarn has been short lived. In spite of addition in Spindle capacity, proportionate increase in production is not observed. Cotton yarn production in the current year declined by approximately 20% compared to previous year.
- b) **Opportunities & Threats:** India is one of the largest producers of cotton and cotton yarn in the world. It has a very large spinning industry which is quite modern. The availability of cotton along with huge manufacturing capacity of all kinds of cotton yarn enable it to produce a large exportable surplus.

China used to be a major importer of Indian yarn, India is now facing a big threat from cotton yarn produced in Vietnam and Bangladesh. MSP (minimum support price) of Indian cotton has been continuously rising. The yarn prices do not rise commensurately with cotton prices leading to pressure on margins for yarn manufacturers.

Slowdown in demand growth in domestic market and marginal growth in value terms in export market is leading to low capacity utilization in spinning industry. Low capacity utilization, high raw material prices continue to remain the major threats for the industry.

- c) **Segment analysis and review:**

Particulars	Units	April 2020 to March 2021	April 2019 to March 2020	% Change
Production of Cotton Yarn	Kgs	Nil	Nil	N.A.
Sale of Cotton Yarn	Kgs	Nil	Nil	N.A.
Average Realisation	Rs./Kg.	N.A.	N.A.	N.A.
Average Cost of Cotton	Rs./Ton	N.A.	N.A.	N.A.
(Loss) before Interest but after Depreciation	Rs. in Lacs	(15.43)	40.46	(138.14)

- d) **Outlook:** The outlook for cotton yarn spinning industry looks positive. With the current upward trend in cotton prices and better domestic and international demand for cotton and cotton yarn, it remains to be seen if it translates into higher cotton crop in f.y. 2021-22. The competitive Indian cotton prices provided support to cotton exports. This indicates that the Indian cotton prices were cheaper or competitive compared to international prices. The cotton yarn spinners have seen improvement in spreads between ginned cotton and cotton spun yarn, which is believed to have augured well for them.
- e) **Risks & Concerns:** Under utilised excess capacity coupled with unbridled capacity creation purely for the sake of availing incentives is proving counterproductive. Addition of new capacity is rendering existing capacity redundant. Stagnant domestic consumption, negative export growth, high input costs and shortage of skilled workforce are common concerns.
- f) **Internal control systems and their adequacy:** The Company has suspended operations since September 2015. The Company has adequate system of internal controls and necessary checks and balances are introduced/ strengthened so as to ensure:-
- that its assets are safeguarded and protected against losses.
 - that all transactions are authorised, recorded and reported properly.
 - that accounting records are properly maintained and its financial statements are reliable.

The significant findings, if any, are placed before the Audit Committee of the Board and corrective measures are recommended for implementation. The Company appoints external firms of Auditors to conduct internal audit and their reports are reviewed by the management and Audit Committee.

Directors' Report (Contd.)

g) Discussion on financial performance with respect to operational performance:

The Company did not have any operations during the year. The profit after interest and depreciation was Rs.(15.79) lacs as compared to profit of Rs. (112.19) lacs for the previous period.

h) Information regarding Human Resources/Industrial Relations: Industrial relations at the Company remain cordial. Manpower employed with the Company as at 31st March, 2021 was 4 compared to 4 as on 31st March, 2020.

i) Details of Significant Changes in Key Financial Ratios

Sl.	Key Financial Ratios	2020-21	2019-20	Difference
1	Interest Coverage Ratio	(42.56)	0.27	(16157.81)%
2.	Operating Profit Margin Ratio	(0.51)	0.28	(282.79)%
3	Net Profit Margin Ratio	(0.52)	(0.78)	(32.53)%
4	Debt Equity Ration	0.01	0.05	(86.03)%

Report on the Indian Accounting Standards (Ind AS) Financial Statements

Qualified Opinion

We have audited the accompanying Ind AS financial statements of Kanco Enterprises Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2021 the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and statement of cash flow for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter described in the Basis for Qualified Opinion section of our report, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, and its loss, total comprehensive income, the changes in equity and its cash flows for the year ended on that date.

Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. Notes to the Financial Statements

Background

Kanco Enterprises Limited (the 'Company') is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956 having its registered office at Jasmine Tower, 3rd Floor 31, Shakespear Sarani Kolkata-700017, India. The company engaged in manufacturing of textile products in India. The company suspended its operations in September 2015 to contain losses due to un-favourable market conditions. The incentives given to new cotton spinning units under the state textile policy created an uneven playing field making it difficult for the older units to compete in times of general lack of demand and a situation of oversupply in the market. The financial statements have been therefore prepared on non going concern basis.

Note 1 Significant Accounting Policies

1. Basis of preparation:

The Financial Statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act. "The financials statements have been prepared on non-going concern basis and assets are stated at lower of carrying value or net realisable value. No material adjustment arose as a result of ceasing to apply the going concern basis.

All the assets and liabilities have been classified as current or non-current as per the normal operating cycle of the Company and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

2 Fixed Assets:

Tangible Assets:

Fixed assets are carried at cost of acquisition |construction including incidental expenses directly attributable to the acquisition|construction activity, as the case may be, less accumulated depreciation, amortisation and impairment as necessary as per "Cost Model".

Transition to Ind AS

On transition to Ind AS, the group has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

3 Depreciation :

Depreciation:

- (a) Depreciation is being provided on a pro-rata basis on the 'Straight Line Method' over the estimated useful lives of the assets. "(b) Depreciation is being calculated on a pro-rata basis from the date of acquisition|installation till the date the assets are sold or disposed of. "(c) useful lives of the assets as prescribed under part C of Schedule II to the Companies Act, 2013 are applied except plat and equipment, for which the management has estimated 10 years useful life of assets based on technical assessment. "(d) The residual values are not more than 5% of the original cost of the asset. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

4 Impairment of Assets:

The carrying amounts of assets are reviewed at each Balance Sheet date to assess if there is any indication of impairment based on internal | external factors. Considering the discontinued operation, an impairment loss on such assessment will be recognised wherever the carrying amount of an asset exceeds its fair value less costs to sell.

Notes to the Financial Statements *(Contd.)*

5 Borrowing Costs:

Borrowing costs in relation to acquisition and construction of qualifying assets are capitalised as part of cost of such assets up to the date when such assets are ready for intended use. Other borrowing costs are charged as expense in the year in which these are incurred.

6 Inventories:

- a) Raw materials, packing materials, work-in-progress, finished goods, fuel, stores and spares are valued at cost or net realisable value whichever is lower. Cost is arrived at on First in First Out (FIFO) basis.
- b) Goods-in-transit are stated at the cost to the date of Balance Sheet.
- c) Scrap materials are valued at net realisable value.
- d) 'Cost' comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventory to the present location and condition.
- e) Due allowances are made for obsolete inventory based on technical estimates made by the Company.

7 Foreign Currency Transactions:

a) Initial recognition:

Transactions denominated in foreign currencies are recorded at the rate prevailing on the date of the transaction.

b) Conversion:

At the year end, monetary items denominated in foreign currencies remaining unsettled are converted into Indian rupee equivalents at the year end exchange rates. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

c) Exchange differences:

All exchange differences arising on settlement and conversion of foreign currency transactions are included in the Statement of Profit and Loss.

8 Revenue Recognition:

Revenue from sales is recognised when all significant risks and rewards of ownership have been transferred to the buyer and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods.

- ii) Export sales are accounted on the basis of dates of on board Bill of Lading and | or Air Way Bill.
- iii) Service income is recognised, when the related services are rendered.

b) Other Revenues:

- i) Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

9 Employee benefits:

a) Defined contribution plan:

Contribution paid | payable by the Company during the period to Provident Fund, Superannuation Fund, Employees' State Insurance Corporation, National Pension Scheme, EDLI and Labour Welfare Fund are recognised in the Statement of Profit and Loss.

Notes to the Financial Statements *(Contd.)*

Provident Fund: The company pays provident fund contributions to publicly administered provident funds as per local regulations. The group has no further payment obligations once the Contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

b) **Defined benefit plan:**

Gratuity:

Gratuity liability is a defined benefit obligation and is computed on the actual basis at the end of each financial year. Any shortfall in the value of assets over the defined benefit obligation is recognised as a liability with a corresponding charge to the Statement of Profit and Loss.

Short-term leave encashment:

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur. The Company has unfunded Defined Benefit Plans in the form of Compensated Absences, as per Company Policy.

10 **Provisions, Contingent Liabilities and Contingent Assets :**

Provisions involving a substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Provision is not discounted to its present value and is determined based on the best estimate required to settle an obligation at the year end. These are reviewed every year end and adjusted to reflect the best current estimate. Contingent liabilities are not recognised but are disclosed in the financial statements. Contingent assets are neither recognised nor disclosed in the financial statements.

11 **Taxation:**

- a) Income tax expense comprises current tax and deferred tax charge or credit. Provision for current tax is made on the basis of the assessable income at the tax rate applicable to the relevant assessment year.
- b) Deferred tax asset and deferred tax liability are calculated by applying tax rate and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets on account of timing differences are recognised, only to the extent there is a reasonable certainty of its realisation. Deferred tax assets are reviewed at each Balance Sheet date to reassure realisation.

12 **Critical estimates and judgments:**

The preparation of Financial Statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. This note provides an overview of the areas that involved a higher degree of judgment or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgments is included in relevant notes together with information about the basis of calculation for each affected line item in the Financial Statements.

The areas involving critical estimates or judgments are:

- Estimation of current tax expense and payable – Note 19.3
- Estimated useful life of Plant & equipment – Note 2
- Estimation of defined benefit obligation – Note 12
- Recognition of deferred tax assets – Note 4

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.
